Contents Volume 66, 2004

Research Papers

Silica phases in sinters and residues from geothermal fields of New Zealand
K.A. Rodgers, P.R.L. Browne, T.F. Buddle, K.L. Cook, R.A. Greatrex, W.A. Hampton, N.R. Herdianita, G.R. Holland, B.Y. Lynne, R. Martin, Z. Newton, D. Pastars, K.L. Sannazarro and C.I.A. Teece 1

Comparing the Epica and Vostok dust records during the last 220,000 years: stratigraphical correlation and provenance in glacial periods
B. Delmonte, I. Basile-Doelsch, J.-R. Petit, V. Maggi, M. Revel-Roliand, A. Michard, E. Jagoutz and F. Grousset 63

Origin, transport and discharge of CO_2 in central Italy
A. Minissale 89

Origin, signature and palaeoclimatic influence of the Antarctic Circumpolar Current
P.F. Barker and E. Thomas 143

Global aspects of volcanism: the perspectives of "plate tectonics" and "volcanic systems"
E. Cañón-Tapia and G.P.L. Walker 163

Global estimates of hydrate-bound gas in marine sediments: how much is really out there?
A.V. Milkov 183

Accounting for natural organic matter in aqueous chemical equilibrium models: a review of the theories and applications
Y. Dudal and F. Gérard 199

Rapid environmental change in African and South American tropics around 4000 years before present: a review
R. Marchant and H. Hooghiemstra 217

Ground-penetrating radar and its use in sedimentology: principles, problems and progress
A. Neal 261

Development of concepts concerning the genesis and emplacement of Tethyan ophiolites in the Eastern Mediterranean and Oman regions
A. Robertson 331

Book Review

Creeping Environmental Problems and Sustainable Development in the Aral Sea Basin
M. Williams 389

Contents Volume 66, 2004 391
